## Department of Defense Directive

**SUBJECT** U. S. Participation in Certain NATO Groups Relating to  
the Research, Development, Production and Logistics  
Support of Military Equipment

- Refs:**
- (a) DOD Directive 5132.2, "Assistant Secretary of Defense (International Security Affairs)," May 20, 1961
  - (?) DOD Directive 5129.1, "Director of Defense Research and Engineering," February 10, 1959
  - (c) DOD Directive 5126.22, "Assistant Secretary of Defense (Installations and Logistics)," January 30, 1961
  - (d) DOD Directive 5100.27, "delineation of International Logistic Responsibilities," December 29, 1964
  - (e) NATO Document C-M(66)33 (Revised), "Cooperation in Research, Development and Production of Military Equipment: Study of NBMR Procedure," 30 May 1966
  - (f) DOD Directive 5100.3, "Cooperation with Allies in Research and Development of Defense Equipment," September 27, 1963

### I. PURPOSE AND APPLICABILITY

This directive amplifies the responsibilities assigned in references (a) through (d) as they apply specifically to U.S. participation in North Atlantic Treaty Organization (NATO) groups established under the terms of reference (e) to promote cooperation in the research, development, production and logistic support of military equipment. It supplements the policies established in reference (f) governing U.S. cooperation with Allies in this area.

### II. BACKGROUND

By approval of reference (e) on May 25, 1966, the North Atlantic Council revised the NATO organization and procedures concerning cooperation in military equipment matters. The purpose of the reorganization was to improve NATO's capacity as a discussion forum and clearing house for instituting cooperative projects. A Conference of National Armaments Directors was established to advise the Council and act under its authority on all questions pertaining to the development and procurement of equipment for NATO forces and connected problems. The Conference will review the overall cooperative

effort undertaken within NATO under the aegis of **groups** established by reference (e) , paying particular attention to the political, **economic** and technical aspects thereof. Army, Navy and Air Force Armaments Groups and a **Defense Research Group** were established as the principal action bodies to initiate cooperative efforts; these latter groups are empowered to establish sub-groups as required. This new organizational structure replaces the former Armaments **Committee** and the **Committee** of Defense Research Directors.

### III . DEFINITION

As used in this Directive, the term "NATO Groups" refers to those groups and sub-groups established under the authority and terms of reference (e) .

### IV. POLICY

The basic DOD policy, objectives and guidelines for cooperation with our allies in the development of defense **equipment** are outlined in reference (f) . These objectives apply equally to the broader range of activities conducted under the procedures of reference (e) . The nature and extent of U.S. participation in NATO Groups will be determined on the **basis of their contribution to the objectives stated in reference (f) measured against whatever disadvantages may accrue from** U.S. participation. U.S. activities in these groups **will** be continuously evaluated to determine the benefit to the U.S.

### V. RESPONSIBILITIES

- A. The Assistant Secretary of Defense (International Security Affairs) **will provide policy guidance within his field of responsibility outlined in references (a) and (d) for U.S. participation in NATO Groups.** He may, at his discretion, provide a representative to meetings of the Conference of National Armaments Directors and to meetings of subordinate bodies when circumstances indicate the desirability thereof, and, within his field of responsibility, will determine U.S. positions on agenda items for these meetings and secure appropriate concurrences.
- B. The Director of Defense Research and Engineering will provide policy guidance within his field of responsibility outlined in references (b) and (d) for U.S. participation in NATO Groups. He will arrange for the **U.S. representation at** the meetings of the Conference of National Armaments **Directors**, monitor and coordinate U.S. participation in the Conference and, within his field of responsibility, will determine U.S. positions on agenda **items** for these meet **ings** and secure appropriate concurrences.

- C. The Assistant Secretary of Defense (Installations and Logistics) **will** provide policy guidance **within** his field of responsibility outlined **in** references (c) and (d) for U.S. participation **in** NATO Groups. He **will normally provide** a representative to meetings of the Conference of National Armaments **Directors** and, within his field of responsibility, will determine U.S. positions on agenda items for these meetings and secure **appropriate** concurrences.
- D. The Director of Defense Research and Engineering and the Assistant Secretary of **Defense (Installations and Logistics)** **will** be responsible for **jointly** issuing detailed implementing instructions concerning U.S. participation **in** NATO Groups, as defined in Section III **above**, and assigning responsibilities among the military departments and other DOD **components** for providing U.S. representation and developing U.S. positions in NATC Groups other than the Conference of National Armaments Directors .

VI. EFFECTIVE DATE

This Directive is effective immediately.

  
Deputy Secretary of Defense
